## PROFESSIONAL EXPERIENCE

### Associate Justice

The Associated Students of Washington State University

September 2024 – May 2025

Pullman, WA

- Adjudicated cases under the ASWSU Constitution and Bylaws, including cases involving intermember conflicts, violation of member conduct, and bylaw interpretation through writs of mandamus and formal reprimands.
- Audited the ASWSU Constitution and Bylaws to ensure accuracy, clarity, and resolve conflicting language.
- Served as a liaison between the President, Senate, student body, and university faculty to promote clear communication between governing bodies.

### Lead Bartender

Cougar Cottage

August 2023 – June 2024

Pullman, WA

- Provided exceptional customer service by preparing and serving beverages while maintaining a welcoming and friendly environment, averaging \$8,000-\$10,000 in sales per shift.
- Assisted in resolving conflicts and alleviated situations to ensure a safe and enjoyable atmosphere for patrons and staff during high volume shifts.
- Trained team members to perform the duties of bartending and bouncing with exceptional results.

### Aviation Ordnance Systems Technician, Corporal

United States Marine Corps

October 2020 – June 2023

San Diego, CA

- Repaired and maintained advanced weapon systems and support equipment for over 30 F-18 series aircraft.
- Guaranteed 100% compliance with quality assurance and safety standards by supervising maintenance operations and conducting regular inspections.
- Conducted data analysis and strategic planning for maintenance schedules and program management while serving as a work center supervisor.

## PROJECT EXPERIENCE

### Economic Analysis of Green Coffee Bean Imports

December 2025

- Conducted an empirical economic analysis on U.S. tariff increases to assess their impact on green coffee bean imports with a colleague.
- Applied a Gravity model framework using Poisson Pseudo Maximum Likelihood (PPML) estimation to derive statistically significant conclusions on tariff driven market dynamics.
- Communicated complex research findings to an audience, supporting evaluation through clear visualizations and evidence based conclusions.
